

The Fledglings

For Bluma Goldberg, the teenaged daughter of a Jewish bootlegger, Prohibition-era Chicago is the furthest place one can get from law and temperance. Her first steps into womanhood are made all the more uncertain by the dangers of her fathers shadowy world. Decades later, her loving son, Bobby Krueger - a man coming off his own share of emotional turmoil - remains mystified by the person he's known all his life. Who is she really? Fighting through Bluma's stubborn refusals to cooperate, Bobby pieces together her memories in order to understand the story of the most interesting woman he has ever known. In *The Fledglings*, David Homel summons complex personalities and weaves them into a vividly-reconstructed historical landscape, taking readers on a fascinating journey into the inner thoughts and intricate relationships of a remarkable character.

World-famous climber turned paragliding addict Cedar Wright returns to the Mayhem to describe well a bit of mayhem! A year ago I sat down. Early this year the famous climber and Niviuk pilot, Cedar Wright, took off from the highest point of Pico de Orizaba, the tallest peak in Mexico and the third in Bird Focus: *The Fledglings* Saturday, July 15, 8:00 am - 10:00 am \$5 Ages 10 and up.
