

Archive of Radiation Effects Short Course Notebooks: IEEE Nuclear and Space Radiation Effects Conference

This CD-ROM Archive of IEEE Nuclear and Space Radiation Effects Conference (NSREC) Short Course Notebooks is a valuable resource for teachers, students, and engineering professionals studying the effects of nuclear radiation on electronics, satellites, and space systems. The collection represents a complete 19-volume set of printed notebooks, originally presented as separate one-day tutorial short courses at NSREC. Over 6100 pages of text, covering every aspect of radiation hardening for electronic circuits, are included on this CD-ROM. The course material was compiled and presented by 80 instructors, all recognized authorities in their respective fields.
