

Specter: Elloras Cave

Sean left the black zones years ago when his mutation became unstable. He is now a specter, able to manipulate the shadow dimension. He's a loyal soldier in the mutants' battle for equality, but he has never forgotten his home or the charismatic friend he left behind. Snatched from Earth and dragged to a distant world, Brianna finds herself captive to a brutal overlord. Rather than fear, her captor stirs passion and ignites longings she doesn't trust or understand. Kellan rules the black zones with an iron fist. He has brought an uneasy peace to his lands and he'll allow nothing to jeopardize his people. Though Brianna claims she's innocent, Kellan suspects she's a spy. All he knows for certain is he wants her pinned beneath him, moaning as he claims her for his own. As if Brianna were not temptation enough, Sean reenters Kellan's life, awakening unwanted hunger and complications they can't afford. The three must learn to trust each other as danger escalates. Only together will they survive the coming battle.
